

Pearl Jam, Comes Then Goes

higher or low... where'd you go?
are you stuck in the middle?
a spectral invisible ghost
I am here juxtaposed
like images of angels in the snow
our courage melts away
it comes then goes

when ya been?
can't find
a glimpse of my friend
don't know where or when one of us left
the other behind
divisions came and troubles multiplied
incisions made by scalpel blades of time

comes then goes
comes then goes
