

# Pearl Jam, Last Exit

lives opened and trashed...&quot;look ma, watch me crash&quot;...  
no time to question...why'd nothing last...  
grasp and hold on...we're dyin' fast...  
soon be over...and i will relent...  
let the ocean swell, dissolve 'way my past  
three days, and maybe longer  
won't even know i've left  
under your tongue...i'm like a tab...  
i will give you what...you're not sposed to have...  
under my breath...i swear by sin...  
for better or for worse...a best we began...  
let the sun climb, oh, burn 'way my mask  
three days, and maybe longer  
shed my skin at last...shed...shed...  
let the sun shine, burn 'way my mask  
three days, and maybe longer  
won't ever find me here  
let the ocean dissolve 'way my past  
four days, and not much longer...  
let my spirit pass...  
this is, this is...  
this is, this is...  
this is, this is...  
my...last exit
