

Pearl Jam, Who Ever Said

drowning in their dissertation
random speaker in my mind

they never stop their fortification
and blocking my precious time

you used to let it go
and let it float away
you don't get speak whit twice as much to say

it's all in the delivery
said the massager who is now dead
was all on the periphery
I don't see him but I heard what he said

sideways talk
poisoning our thoughts
everyone walks and it's no ones fault

whenever said it's all been said
get up on satisfaction

home is where
the broken heart is
home is where
every scar is
