

Pedro Camilo, Meant To Be

Let me take you in my arms
Open your heart, make'em see
Baby we belong together
Some things are just meant to be

Let me take you in my arms
Open your heart, make'em see
Baby we belong together
Some things are just meant to be

I guess you said the truth
You didn't lie to me
Sorry I was so rude
Was blind by jealousy

Wanna start again
Want us to be alright
Take care of you forever
Make love to you tonight

I know we had our troubles
We're just like everyone
But I can't lose you now
I found out you're the one

Let me take you in my arms
Open your heart, make'em see
Baby we belong together
Some things are just meant to be

Let me take you in my arms
Open your heart, make'em see
Baby we belong together
Some things are just meant to be

You say you're a loner
And that's alright with me
If you don't mind me sayin'
Don't know where you wanna be

You live by your own rules
You listen to no one
If you keep on doin' that
You'll end up all alone

Let's cross this road together
Give it another try
Then If things don't work out
we'll just say good-bye

Let me take you in my arms
Open your heart, make'em see
Baby we belong together
Some things are just meant to be

Let me take you in my arms
Open your heart, make'em see
Baby we belong together
Some things are just meant to be

Let me take you in my arms
Open your heart, make'em see
Baby we belong together
Some things are just meant to be

Let me take you in my arms
Open your heart, make'em see
Baby we belong together
Some things are just meant to be
