Pendulum, Come Alive

Slave to a vision Stranger from the outside Eyes against your prism Caught you in the headlights

Head against a wire Helping me get closer Set yourself on fire And show me when it's over

Cause i come alive When you're alone You've got nothing to fear Restless tides of your shadow This timw you'll know i am here

Hail to teh seeker
Waiting on the breakhtrough
In for every hour
This is what its coem to

Cause i come alive When you're alone You've got nothing to fear Restless tides of your shadow This timw you'll know i am here

Cause i come alive When you're alone You've got nothing to fear Restless tides of your shadow This timw you'll know i am here
