

Pennywise, Change My Mind

Every time i talk - you just say i'm wrong
I can't take it anymore a thousand lies a billion strong
You have to be right - you agrgue all the time
Make your point and then shut up
You're never gonna change my mind
No - aint gunu change my mind - you bug me everyday
Just let me see it my way - aint gunu change my mind
I want you to stop you're closing in on me
Just get off my fucking back - arn't you ever gunu see
Wasting all your time - with all the things you say
Get this through your head - everything can't be your way
You try to deny all the things that you cann't hide
