Pentatonix, The Lucky Ones

That small town
Was gettin' me dwon
Don;t stand out
You'll get kicked around

Put up a wall so tall
You're safe there
Time went by
Got so insecure
Go run , hide
So you don't get hurt
Dan't face your pain
We'll do that later

So i drobe all night
And i never looked behind me
Knew i'd be alright
Even when the nights got blinding

Look how far we've come
And it was all unexpected
We were broke and we were young
But somehow we stayed connected
So we hold on to our better day

Cause easy come
Easy go away

Still can't believe we were the lucky ones
Look how far we've come
