

People In Planes, My Black Widow

Black widow in a white room
will you survive?
Black widow in a white room
with no diguise
Black widow in a white room
you stand out a mile
Black widow in a white room

Black widow on a mission
can't stand what she's missing
Black widow on a mission
she don't know who to believe in
Black widow on a mission
can't stand what she's missing
Black widow on a mission
she don't know who she's killing

Who'd you believe in

Black widow in a white room

Black widow on a mission
can't stand what she's missing
Black widow on a mission
she don't know who to believe in
Black widow on a mission
can't stand what she's missing
Black widow on a mission
she don't know who she's killing

Who'd you believe in

She's such a liar
I'm gonna spy on her
You make me disappear with flick
of your little finger, why?
You make me!

Black widow in a white room
will you survive?
Black widow in a white room
with no diguise
Black widow in a white room
you stand out a mile
Black widow in a white room, oh

Black widow on a mission
can't stand what she's missing
Black widow on a mission
she don't know who to believe in
Black widow on a mission
can't stand what she's missing
Black widow on a mission
she don't know who she's killing
