

# Pepper, The Office

Come down sit right here its OK  
And my words are spoken slurred every single day  
Sure to find some comfort, up against the hallway wall  
I know I could, never have it all  
Reaching the next level under  
Drinking starts this reflex, so I dial your number  
But the phone was out of order  
Last call was made at 2 AM  
Some how when it's broken  
Its always there to mend

[chorus]  
Stumble don't rumble  
Cuase you might get killed  
Sip but don't tip  
Cause your beer you might spill  
Think what you feel  
Cause your feelings don't think  
Here at the office,  
We know just one drink

And I've been living at this address all week  
Attractive cause my hair is dull  
And my clothes are starting to reek  
So when I'm to involved  
With the problems I can't solve  
Wrap my finger around the original quality.
