Pet Shop Boys, Footsteps

Footsteps in the dark Only love will break your heart Footsteps, footsteps

Whenever trouble comes around or lonely nights lead underground and far in the dark abandoned cars suddenly start up an anxious sound As long as I hear your footsteps in the dark that's all I need

Footsteps in the dark Only love will break your heart Footsteps, footsteps

When loneliness induces fear like waves against a ramshackle pier When thunder and rain scar the windowpane once again I want you near As long as I hear your footsteps in the dark that's all I need

I'm longing to see you I want you, I need you

Like a child who feels afraid
of the dark at night
hoping to hear a gentle touch
turning on a welcome light
As long as I hear your footsteps in the dark
that's all I need
As long as I hear your footsteps in the dark
that's all I need

Footsteps in the dark Only love will break your heart Footsteps, footsteps Footsteps in the dark Only love will break your heart Footsteps, footsteps
