## Pet Shop Boys, Indefinite Leave to Remain

I was lost For so long Feels like it's taken Half my life To find Where I belong Seeing you here You're my nation This is my application Give me hope Keep me sane Give me Indefinite leave to remain All the worlds That I saw I went so far away And still wanted you more It may sound superficial But can we make it official? Give me hope Keep me sane Give me Indefinite leave to remain Tell me where I stand What do you envision? One way or another Give me your decision now Is it time To proceed? Will you give me a chance And the status I need? Seeing you here You're my nation This is my application Give me hope Keep me sane Give me Indefinite leave to remain
