

Peter Bic Project, Hey Now

I'm just worried about it
I can't stop think about it
Here we are
We came here to talk about it
Little dirty thing
I will never look to your eyes
Never know her name
Stop blaming me now!
That night I was so high
Your body lied to me Ah
That code I couldn't recognize
But one thing you forgot
Never play with my heart
Boy how could you be so dumb?

Hey now,
Blame now
Hey now,
Say now

I know what they say
Life is one real game
But who can tell me, that I have to play
When other players play hard
How could they funk with my heart with no punish
This is not the real game
Someone can call this game life
But I could use my knife
If anyone makes me the part of this bluff
So if you wanna play hard
Try something with cards
Fuck all dirty players at my party

Hey now,
Wait now
Tears are never gonna heal your body
Hey now,
Say now
Please never gonna stop this party
never gonna heal your body
never gonna stop this party

Baby, I don't know why
You are always telling me lies
Baby, I can't deny
Always asking you why
Never know but I will
Forever and ever
By your side
Baby, I don't know why
Just can't deny
You're the reason that I wanna live
And no matter what time
Always be mine
You'll always be mine

Hey now,
Wait now
Tears are never gonna heal your body
Hey now,
Say now
Please never gonna stop this party

Hey now(Hey now),

Wait now(Wait now)
Tears are never gonna heal your body
Hey now(Hey now),
Say now(Say now)
Please never gonna stop this party
