

Peter Bjorn And John, What You Talking About?

You used to be my hero
Now you're just another butt
Now I rate my self-esteem
I can't understand what you talking about
All the anger left my body
I drop off in the aftermath
Five years since you run the study
I can't understand what you talking about

I got a message to you
Cause I can't follow through

Tell you lies and never listen
Tell the truth and I'll be gone
Tell me why I need permission
You don't have to shock
I can't understand what you talking about
No, I can't understand what you talking about

Shine in, in your shadow
How could I sink this low?
Our queen just has been so-so
I can't understand where my patience's gone

Captain Hook's waiting for my savior
You raised the toast for your second son
I was on time but you turned up later
Always expected you'll end up alone

I got a message to you
Cause I can't follow through

Tell you lies and never listen
Tell the truth and I'll be gone
Tell me why I need permission
You don't have to shock
I can't understand what you talking about
Tell you lies and never listen
Tell the truth and I'll be gone
Tell me why I need permission
You don't have to shock
I can't understand what you talking about
No, I can't understand what you talking about

What you talking about?
What you talking about?
What you talking about?
What you talking about?
