

# Peter Cetera, Feels Like Heaven

All through my wandering years  
I always said  
I was biding my time  
All alone in the dark  
I'd faced my fears  
That no other heart would come to mine

At first when you found me  
It took me a while  
'til I realised  
Why I felt weak  
When you were around  
Why I couldn't speak  
When I looked in your eyes

All this time  
I've been searching  
Until you, I was lost in my dreams  
And I never knew that love  
Could feel like heaven  
Watching over me

Wherever you are  
Invisible hands reach over the miles  
For every wish  
You make to the stars  
There's one silent kiss  
I send to the sky

All this time  
I've been searching  
Until you I was lost in my dreams  
And I [pause] never knew that love could feel like heaven  
Watching over me

Everything's changed  
Since you came my way  
(Since you came my way)  
You put the colour  
In a world of grey  
And you make the love  
That carries me away

All this time  
I've been searching  
Until you  
I was lost in my dreams  
And I never knew that love could  
Feel like heaven  
Watching over me  
You know that it feels like heaven  
Watching over me

Watching over me

Feels like heaven
