

Peter, Mexican Dream

Adios Amigos good-bye my friend
We thought our good times would never end
All the golden days that I shared with you
Should last forever but now they are through
We were singing and dancing the whole night long
Music playing till the morning sun
And the people around they would clap their hands
I wish we could keep it and live it again.

In a Mexican dream by the Rio Grande
All the Mexican songs on the radio
And the Mexican guys with their big sombreros
They were cheering for us with a big hello.
If we're leaving now going separate ways
We'll keep this memory through all our days
In the darkest night we'll be mighty strong
Until we're together - won't be too long
We'll be singing and dancing the whole night long
Music playing till the morning sun
And the people around they will understand
The happiest dreamers together again.
In a Mexican dream by the Rio Grande
