

Peter Tosh, Leave My Business

Wake up one morning and don't have no tea
Me no want no one come sorry for me
That's nobody's business but my own
The other day comes and it happens the same
Don't think that I'm going to feel ashamed
That's nobody's business but my own

So you better leave my business, leave my business
Leave my business and mind your own

If I get high and fly like bird
You should never say a word
That's nobody's business but my own
And if you drink rum and tumble down
You alone go and have your fun
That's nobody's business but your own

When landlord come collecting rent
Me not come beg you fifty cent
That's nobody's business but my own
And if he says that I'm to move
That won't stop me from improve
That's nobody's business but my own

Leave my business, leave my business
Leave my business and mind your own
