

# Pharrell Williams, I Really Like You

[Verse 1:]

There were flashing lights when we met  
Not the typical place you would be  
In a flash of time my mind was set  
I knew you were the girl there for me

[Bridge:]

And though you just wanted to leave  
Imagine how great it could be  
The F-U-T-U-R-E (spells the future girl)  
Sit down hold your horses don't leave (where you going girl?)

[Chorus:]

Come and sit with me don't be so quick to leave (please)  
I really like you girl (girl, girl)  
Let's trade thoughts and words explore the universe (verse)  
But just don't leave me girl (girl, girl)  
I really like you girl (girl) girl (girl)  
From the moment (the moment) that we met (we met)  
I really like you girl (girl) oh girl (girl)  
And I know (I know) this is it (this is it)

[Verse 2:]

Against the wall is where ya lean  
The most beautiful girl that I've seen  
Out of this world my God you bling  
I'm surprised that you are a human being

[Bridge]

And though you just wanted to leave  
Imagine how great it could be  
The F-U-T-U-R-E (spells the future girl)  
Sit down hold your horses don't leave (where you going girl?)

[Chorus]

[harmonica solo; music]

[Chorus]

Yo... I think I got the one now (uh-huh)  
Never me man never me... never in a million years (uh-huh)  
But I do... Haha... Whoo!

[music to fade]
