

# Picture House, One In A Million

(browne/glenister)

Getting peeled off another bar  
I've got to go but it's just too far  
She's looking good for a night in a padded cell  
Like a virus with no antidote  
She's looking good but she might be a bloke  
She could be venus but it's getting so hard to tell

(Chorus)  
How would I know the kind of love  
One in a million girls  
One in a million years  
Could give me

I see the smiles through the coloured smoke  
I'd love to laugh but I don't ge the joke  
Guess I'm the star in a one man show  
Pour me a cab with a lemon twist  
A bowl of peanuts and a well-placed fist  
Oooh I'm seeing those chips again

(Chorus)

Looking at the world  
Why can't it see me  
You know I wish it could see me

(Chorus)
