

Pink, Centerfold

Im on the rebound
I get it when I want to
Im on the way down
Im getting fixed without you
You gave me a band aid
I put it on my heartbreak
And all you got is pictures in your hand

Don't you wish you could hold
The angel in the centerfold
The fantasy you couldnt control
I walked away from you (I walked away from you)
Don't you wish you could hold?
The pretty little paper doll
The one you couldnt quite control
I walked away from you

Flip to me Im the centerfold
Im gonna charm you all night (all night)
Stick to me Im the centerfold
Were gonna go on, hold tight

Im gonna hate you
Til I forget you
So heres a keep sake
I left it in the bathroom
Just a little something
Something to remind you
Im sure youll never get this close again

Don't you wish you could hold
The angel in the centerfold
The fantasy you couldnt control
I walked away from you (I walked away from you)
Don't you wish you could hold
The pretty little paper doll
The one you couldnt quite control
I walked away from you (I walked away from you)

Flip to me Im the centerfold
Im gonna charm you all night (all night)
Stick to me Im the centerfold
Were gonna go on, hold tight (hold tight)
Flip to me Im the centerfold
Im gonna charm you all night (all night)
Stick to me Im the centerfold
Were gonna go on, hold tight

Now its him when it coulda been you
Tell me why its him when it shoulda been you
Its crazy how this makes you wanna change
Heres an image you wont forget
All your life Ill tease, Ill torment
Ill be gone as soon as you turn the page

Don't you wish you could hold
The angel in the centerfold
The fantasy you couldnt control
I walked away from you (yeah)
Don't you wish you could hold
The pretty little paper doll
The one you couldnt quite control
I walked away from you (oh, walked away from you)

Flip to me Im the centerfold
Im gonna charm you all night (all night)
Stick to me Im the centerfold
Were gonna go on, hold tight
