

Pink Martini, Everywhere

Everywhere I go I know
Everywhere I go will glow
The sleepy summer sky
The lovers passing by
All the cities too
Make me think of you
Everywhere I go I see
A world designed for you and me
I always realised with every new sunrise
That you are with me everywhere
I've never ever known a love that lasted
Beyond the thrill of a first kiss

This love of our's has utterly surpassed it
And now my bliss is this
Every time I'm far from home
I am never quite alone
Whenever we're apart
You're always in my heart
For you are with me everywhere
Every time I'm far from home
I am never quite alone
Whenever we're apart
You're always in my heart
For you are with me everywhere
