

# Pink Room feat. Antonia, Roses On Fire

You know me I just like to fly  
Just touch my body and don't ask me why  
You know me I just like to fly  
But it's true, I like you

And only you can make me high  
Just touch my heart man and do it right  
You know me, i just like it high  
And it's true, I like you  
You and only you...

You know boy what I feel for you is love and desire  
Tonight I will show that is true, my blood is on fire  
You know boy what I feel for you is love and desire  
Tonight I will show that is true, my roses on fire

You know me I just like to fly  
Just touch my body and don't ask me why  
You know me I just like to fly  
But it's true, I like you

And only you can make me high  
Just touch my heart man and do it right  
You know me, i just like it high  
And it's true, I like you  
You know boy what I feel for you is love and desire  
Tonight I will show that is true, my roses on fire  
You and only you...

You know boy what I feel for you is love and desire  
Tonight I will show that is true, my blood is on fire  
You know boy what I feel for you is love and desire  
Tonight I will show that is true, my roses on fire.
