

# Pink, Unwind

[Verse 1]

I hide my pain like the rest of them  
That's why I'm always laughing  
I'm troubled, I'm brilliant and miserable too  
That's why I am so funny  
I swallow down all my fears  
With a bottle made of silver  
I've only been here for 27 years  
But already my life is over

[Chorus 1]

And I need to unwind, yes, and I  
I need to unwind, yes, and I  
Want all the time  
To be loved, to unwind

[Verse 2]

My life is like a fairytale  
That nobody believes in  
I can't remember anything  
Not the people, not the places I've been  
Just one more day you can make it, babe  
That's what I tell myself  
And everything that I love in life  
It is killing me, 'cause it's bad for my health

[Chorus 2]

Somebody comfort me  
S...southern comfort me  
Somebody comfort me  
S...southern comfort me

[Chorus 1(3x)]

[Chorus 2(out)]
