

# PINS, Girls Like Us

Do you see me like I see you?  
You could if you want it to  
You lost lust because you must  
It's all good for girls like us

Now all my friends are enemies  
And this place means nothing to me  
I don't know who you think I am  
No one will ever understand  
I think I got mad but it was fun  
I think I got mad but it was fun  
I think I got mad but it was fun  
I think I got mad but it was fun
