

Pixie Lott, Heart Cry

Don't you ever try to love
You know nothing of me you think you know
Don't you ever try to heal?
Cut me deep inside and leave me on my knee

And I told you Imma ask for trust
Givin' you my all would always batter us
Don't you ever try to feel
Affection is a virtue you will not reveal

Because you did it
You went and did it again
You want a minute
You think that love is a sin

How are you with it
How are you with it
Why, oh why
With love you ever have a heart cry

Have you ever had a heart cry
Have you ever had a heart cry
