

# Pixie Lott, Lay Me Down

You see me howling at the Moon,  
It's what you thought me to do!  
I'm chasing stars just to get back closer to you!  
You see the ashes by the fire  
The only life that I knew  
I touched the flame just to get back closer to you!

Show me the way,  
I've done traveling too long with the curse on my bag  
And the hole in my heart  
Now you say there's no love to be found  
When six feet down and I thought that I'd be closer to you!  
Why don't you lay me down, lay me down lay me down  
Won't you lay me down, lay me down lay me down  
Closer to you!  
Why don't you lay me down, lay me down lay me down  
Won't you lay me down, lay me down lay me down  
Closer to you!

You hear me beating on the door,  
What else you want me to do?!  
Ooh, you got me crawling out the walls to get closer to you  
Yes you do! Show me the way,  
I've done traveling too long with the curse on my bag  
And the hole in my heart  
Now you say there's no love to be found  
When six feet down and I thought that I'd be closer to you!  
And I thought I'd be closer to you!  
Why don't you lay me down, lay me down lay me down?  
Won't you lay me down, lay me down lay me down?  
Closer to you!  
Why don't you lay me down, lay me down lay me down?  
Won't you lay me down, lay me down lay me down?  
Closer to you!

Why don't you lay me down, lay me down lay me down?  
Won't you lay me down, lay me down lay me down?  
Closer to you!  
Why don't you lay me down, lay me down lay me down?  
Won't you lay me down, lay me down lay me down?  
Closer to you!
