pizzicato five no album wa  
kore de o-shimai desu

nao kono cd ni wa  
bonus track wa  
osamerarete orimasen

-----  
you can see through the window  
the lights from  
the skyscrapers  
it looks like  
a starry  
night  
it looks a bit like that

if i am not  
wrong  
when i was a kid  
alone  
dad and mom  
not home  
as i looked  
outside the window  
the stars pulled me out  
and i flew through the sky

through the window  
i could see  
the darkness of night  
i feel like  
listening to your voice again

if i am not  
wrong  
the first time we met  
it was a very  
starry night

the beautiful people  
who live in the beautiful star  
the people i long to meet  
from the beautiful  
star  
will remember me  
some day

from the window  
you can see  
the skyscrapers' lights  
just like  
a starry night  
i once saw

the beautiful people  
who live in the beautiful star  
the star i miss  
the star far away  
those beautiful people  
will remember me  
some day

(hosokawa toshiyuki:)  
hi everybody  
did you have  
a good time?  
this is the end

of this record  
this cd  
does not have  
a hidden track
