

PJ Harvey, City Of No Sun

Love me tenderly my darling
In the city of light and truth
For this moment forever sing
For my darling that I love you
The city of no sun (city of no sun)
No peace (no peace)
In my heart (no joy in my heart)
You left me nothing (with nothing)
You left me broken (broken)
Once sad (sad)
Once greed (greed)
Once said (he loved me)
He loved me (he loved me)
He loved me
Outside the fields
In sunlight
The singing breeze
And the silence
Lover release me (lover release me)
I can't move I can't breathe (I can't move I can't breathe)
No heart, no peace (no heart, no peace)
No more nothing (nothing, peace, love me)
Long day, long night (long day, long night)
Too long, love lies (too long, love lies)
Love lies
