

PJ Harvey, Working For The Man

In the night I look for love
Get my strength from the man above
God of piston, god of steel
God is here behind the wheel
I'm just working
For the man
Pretty things get in my car
Take them flying, it's not far
Take in handsome, take in me
Look good in my steel machine
I'm just working
For the man
Don't you know yet who I am?
Working harder for the man
Go around I'm doing good
Get my strength from the man above
I'm just working
For the man
I'm just doing
What I can
Go around I'm doing good
Go around I'm doing good
