

# Placebo, BEAUTIFUL JAMES

Bring me back to life  
Never let me go  
Your troubles and your strife  
I saw them  
Take me by the hand  
As we cross through battlefields  
Nobody understands  
Cause there's nobody at the wheel

Beautiful James  
I don't want to wake you  
Beautiful James  
I don't want to wake you

Everybody lies  
One hundred times a day  
The silence in your eyes  
Is far too rare to give away  
And it's exactly why I stay

Beautiful James  
I don't want to wake you  
Beautiful James  
I don't want to wake you

I don't want to wake you  
Beautiful James  
I don't want to wake you  
I don't want to wake you  
Beautiful James  
I don't want to wake you

Thoug i mah have to  
I may have to  
I may have to

I don't want to wake you  
Beautiful James  
I don't want to wake you  
I don't want to wake you  
Beautiful James  
I don't want to wake you
