

# Placebo, Centrefolds

Come on Balthazaa I refuse to let you die  
Come on fallen star I refuse to let you die  
Cos that's wrong and I've been waiting far too long  
It's wrong I've been waiting far too long  
For you to be..be me..be..be mine  
For you to be mine..be mine..for you to be mine  
And it's wrong, I've been waiting far too long  
It's wrong, I've been waiting far too long  
For you to be..be me..be

All the centrefolds that you can't afford  
Have long since waved their last goodbyes  
All the centrefolds that you can't afford  
You've long since faded from their eyes  
So be..be mine [x2]
