

Placebo, Loud Like Love

Love on an atom,
Love on a cloud,
To see the birth of all that isn't now
Can you imagine a love that is so proud?
It never has to question why or how
So I'd abandon the love in my dreams
When I wake up I'm soaking in my sheets

Breathe /2x
Believe /4x

For all of our youth
We have craved them
Their beauty and their truth

Breathe /4x
Believe /4x
Breathe /4x
Believe /4x

That we are Loud Like

Love on an atom,
Love on a cloud,
To see the birth of all that isn't now
Can you imagine a love that is so proud?
It never has to question why or how

For all of our youth
We have craved them
Their beauty and their truth
So we name them
And somehow they pull us through
We have craved them
For all of our youth

Breathe /4x
Believe /4x

We are Loud Like Love /10x
