

# Placebo, Something Rotten

It seems we're here I  
Miss you something rotten  
The stinks are here  
It's guaranteed all's forgotten  
Down here  
Down here it's clear that your uncut  
Don't fear  
Don't fear, keep all this forgotten  
Face down  
Face down  
Face down, I miss you something rotten  
Face down  
Face down, this crown is broken rotten

Down here, down here, I know its not, it's all forgotten  
Down here, down here, face down, I miss you something rotten  
Down here, down here, it stinks, it stinks of something rotten  
Don't fear, don't fear, keep all this forgotten  
There's something rotten down here  
There's something rotten down here  
There's something rotten down here  
There's something rotten down here...
