

Plain White T's, Come Back To Me

Everything you say or do
I am always there for you
Whether you're laughing or you're screaming
No one else could take your place
I will always see your face
When I'm awake and when I'm dreaming

Cause I believe there's a place for you and me in this crazy world

If you come running back to me I'll be here waiting
Cause I still believe in a love worth saving
If you could see the sad look on my face
You'd be in your car headed back to my place
Come back to me, I'll be here waiting
Cause I'm on my knees and my love's not fading
If you could see the sad look on my face
You'd be in your car headed back to my place

I can't stand to watch you go
Cause in my head deep down I know
I don't wanna live without you
I love the way we stay up late
The way you laugh at your mistakes
I love everything about you

Cause I believe there's a place for you and me in this crazy world

If you come running back to me I'll be here waiting
Cause I still believe in a love worth saving
If you could see the sad look on my face
You'd be in your car headed back to my place
Come back to me, I'll be here waiting
Cause I'm on my knees and my love's not fading
If you could see the sad look on my face
You'd be in your car headed back to my place

No, don't wanna let you go
Girl, you belong in my heart, in my arms, in my bed
Girl, quit messing with my head
Say that you're coming back to stay right here with me

If you come running back to me I'll be here waiting
Cause I still believe in a love worth saving
If you could see the sad look on my face
You'd be in your car headed back to my place
Come back to me, I'll be here waiting
Cause I'm on my knees and my love's not fading
If you could see the sad look on my face
You'd be in your car headed back to my place

Come back to me
I still believe
If you could see the sad look on my face
You'd be in your car headed back to my place
Come back to me
I'm on my knees
If you could see the sad look on my face
You'd be in your car headed back to my place
