

# Plain White T's, Girl From Pasadena

Everything is changing in the blink of an eye  
And if you can't believe it, baby, neither can I  
So excited I met you and now I can't get you off my mind  
Full of butterflies when I'm about to see you  
I'm addicted to the feeling that you're feeling it too  
I'll be smiling the whole day on my way to you from Malibu

Just when I least expected it  
Found love and I'm obsessed with it

Now I'm  
Catching every green light  
On my way to meet ya  
The girl from Pasadena  
And I'll stay  
Forever if it's okay  
I never wanna leave ya  
The girl from Pasadena

Staying up 'til two, having a couple of drinks  
And waking up with you is like my favorite thing  
Every second together gets better and better, don't you think?  
I just wanna lay here with you everyday  
Kissing you and staring at your beautiful face  
There's just something about it and I don't know how to look away

Just when I think I'm in too deep  
You come and dive right in with me

Now I'm  
Catching every green light  
On my way to meet ya  
The girl from Pasadena  
And I'll stay  
Forever if it's okay  
I never wanna leave ya  
The girl from Pasadena

I wanna be, wanna be, wanna be with ya  
In Pasade-Pasade-Pasadena  
Ooh  
Ooh  
Best view that I have ever seen  
I found my California dream

Now I'm  
Catching every green light  
On my way to meet ya  
The girl from Pasadena  
And I'll stay  
Forever if it's okay  
I never wanna leave ya  
The girl from Pasadena
