

# Plain White T's, Last Call

[Chorus:]

This is my last call to you  
Then I'll give up everything  
That we had, that we'd do  
And you'll never hear me sing  
All these songs about you  
So just take this time and think  
Just take this time and think

Think about the things that we had  
The good times before they went bad  
They're not gone just yet  
It's all up to you  
Think about the dreams in our heads  
Layin' awake, holding on in my bed  
Why don't you go ahead  
And make them come true  
I still believe in you

[Chorus]

Think about the plans that we made  
Drivin' around while the radio played  
They may have gotten delayed  
But they're waiting for you  
Think about the look in my eyes  
Saying I love you the very first time  
Focused, not blind  
And you said it too  
I still believe in you

[Chorus]

Think of everything, think of everything we had  
Think of everything, think of everything we haven't had  
Like livin' in the Midwest Club  
Goin' on our honeymoon in Paris  
Makin' out when we're grown up  
Listening to the best man speech  
From Darren  
Think of everything we had  
Knowing how it feels to be in love  
And kisses that would drive us mad  
Going to the Metro  
Giving up what we will  
Never have again  
Will it ever be the the two of us again?

This is my last call to you  
Then I'll give up everything  
That we had, that we'd do  
And you'll never hear me sing  
All these songs about you  
So just take this time and think  
Plans we made but didn't see through  
Just take this time and think  
Memories, me and you  
Just take this time and think  
Dreams we had that never came true  
Just take this time and think  
The look in my eyes lookin' at you  
Just take this time and think  
Just take this time and think  
Just take this time and think
