

Plain White T's, Someday

Someday well all get started
Someday well have what we wanted
Someday well want whats better
Someday well all live forever, oh, oh
Someday well all reach higher
Someday we wont be so tired
Someday we wont say never
Someday well all be together, oh
What if we all could just agree
To live together in the world in perfect harmony?
What if we all could find a way
To live a better life today?
Someday well all get started
Someday well have what we wanted
Someday well want whats better
Someday well all live forever, oh
Oh, they will never understand us
Oh, wouldnt want it any other way
Oh, they wont always stand against us, oh
Oh, they wont always stand against us, oh
What if we all could just agree
To live together in the world in perfect harmony?
What if we all could find a way
To live a better life today?
Someday well all get started
Someday well have what we wanted
Someday well want whats better
Someday well all live forever, oh,
Someday well all reach higher
Someday we wont be so tired
Someday we wont say never
Someday well all be forever
Oh, someday well all live forever
Oh, someday well all live forever
Oh, someday well all live forever, oh
