

Plazma, I Never Dreamed (That You'd Love Me)

I was on the loose and you were so pure
I was said to be very insecure
No I never knew you had love inside
Hidden in your heart, covered by your pride
You weren't mine an' what could I claim?
You looked at my life I remained the same
I was blind baby cold as stone
Never realized I'd been lost too long

I never dreamed that you'd love me baby
I never dreamed that you'd love me baby
I never dreamed that you'd love me baby
I never dreamed that you'd love me baby
You really love me
You love me baby
You really love me

If your heart could speak, If I only knew
All I said an' did mattered much to you
Fallin' into love I admired you
How could I assume that you'd love me too?

I never dreamed that you'd love me baby
I never dreamed that you'd love me baby
I never dreamed that you'd love me baby
I never dreamed that you'd love me baby
You really love me
You love me baby
You really love me

You love me baby, baby
You love me baby, baby
You love me baby, baby
You love me baby, baby
