

POP ETC, Keep It For Your Own

Can't wait for your empty hand
and work it for love
just tryin to get by of the cold
Our heart on to little tongue a little to let
Shake my way banded the way they go

I had to run
couldn't stop, oh
you had to go

You gotta keep it for you,
You gotta keep it for you,
We gotta keep it for you,
We gotta keep it for you.

Do we always live feel in my
And I get it shake it for you thinking of time
I have to live caught in the middle
run in circles that all the people lie on
I had to run,
Couldn't stop
You had to know

You gotta keep it for you,
You gotta keep it for you,
We gotta keep it for you,
You gotta keep it for you.

I gotta keep it from you

Don't believe me to find I'll always to find pieces
Mine you need to find your own way and pieces
Time to find your own way

You gotta keep it for you,
You gotta keep it for you,
We gotta keep it for you,
You gotta keep it for you.
