

# Porcelain And The Tramps, Sugar Cube

I'm looking to the life  
The words falling out  
the disco ball and there's snow on the ground  
say "ohhh" I say "oh"  
The sun shining blind is whimp  
But only I know what it's right  
Put a wish on the sky  
say "ohhh" I say "oh";

I think about you  
Can't dream without you  
I always want more  
Transe to the dance tune  
under a full moon  
And a reason to...

I think you know  
Tonight Tonight  
Gonna put you, face you, tease you show you  
what I've been waiting for (yeah,yeah)  
Sugar cube  
Tonight Tonight  
gonna make you, take you, pace you, shake you right down to dance floor

On the break down  
On the break down

What comes up must come down  
Tension on the ground and the place shut down  
say "ohhh" I say "oh"  
The time has come  
Not a word, I'm not done  
Stay up all night until we see the sun  
say "ohhh" I say "oh";

I think about you  
Can't dream without you  
I always want more  
Transe to the dance tune  
under a full moon  
And a reason to...

I think you know  
Tonight Tonight  
Gonna put you, face you, tease you show you

what I've been waiting for (yeah,yeah)  
Sugar cube  
Tonight Tonight  
gonna make you, take you, pace you, shake you right down to dance floor

I think you know  
Tonight Tonight  
Gonna put you, face you, tease you show you  
what I've been waiting for (yeah,yeah)  
Sugar cube  
Tonight Tonight  
gonna make you, take you, pace you, shake you right down to dance floor

Always wanting me to say  
Always wanting me to say  
You'll always want me  
always want me

Always wanting me to say  
Always wanting me to say  
You'll always want me  
always want me

Sugar cube  
Tonight Tonight  
gonna make you, face you, pace you, shake you right now to dance floor

I think you know  
Tonight Tonight  
Gonna put you, face you, tease you show you  
what I've been waiting for (yeah,yeah)  
Sugar cube  
Tonight Tonight  
gonna make you, take you, pace you, shake you right down to dance floor
