Porcupine Tree, Drown With Me

Drown With Me

So you have been of use And you have been abused

You know you look pale today Your lipstick has gone astray

You sold out and lost your looks You gave away all your books

(You should drown with me)

Your coil has been wound up tight Unwind it with me tonight

(You should drown with me)

Tyre tracks Fresh on the ground Where she will be found Held under the water Resting there in a stream View from the cold water Buried in green Orange filter sky

Your drowning in family there When will you come up for air

(You should drown with me)

Don't feel you let 'em down Cos they have already drowned

(You should drown with me)
