

Post Malone, Leave

She said, "Love me," so I love her
She said, "Leave me," so I left
Then I went to California
And I ain't never comin' back
I gotta hi-five from a brother
I got bloodstains on the bed
And I ain't sayin' that I love her
But this bitch is gonna drive me mad
I said this bitch is gonna drive me mad

You got just what I been looking for
But you can't bring yourself to say no
And I ain't never gonna let you go
I kept wishing I would die ooh
The whole plane ride home
And I wish I could
I know I should leave you alone

I worship since I met you
I fell down to my knees
And when no one would accept ya
Throw myself up on a cross and bleed
I seen a dark cloud coming over
I seen some evil shit in her head
But she rode me like no other
But this bitch is gonna drive me mad
I said this bitch is gonna drive me mad

You got just what I been looking for
But you can't bring yourself to say no
And I ain't never gonna let you go
I kept wishing I would die
The whole plane ride home
And I wish I could
I know I should leave you alone
You got just what I been looking for
But you can't bring yourself to say no
And I ain't never gonna let you go
I kept wishing I would die
The whole plane ride home
And I wish I could
I know I should leave you alone
