Let there be night  
And day be gone

Let there be night  
And damn the sun

Let there be night  
God bless the father, the son  
Let there be night  
And day be gone  
Let there be night  
The mass of dark has begun  
Let there be night  
And damn the sun

Let there be night (Night!)  
Let there be night (Night!)  
Let there be night (Night!)  
In the darkness  
Let there be night (Night!)  
Let there be night (Night!)  
Let there be night (Night!)  
In the darkness

Let there be night  
God bless the father, the son  
Let there be night  
And day be gone  
Let there be night  
The mass of dark has begun  
Let there be night

And damn the sun
