

# Powerwolf, Saturday Satan

The moon is out and rising  
And silent is the night  
My face is pale and hiding  
Behind the neon light  
The seven is my number  
Temptation is my game  
I came from six feet under  
And Satan...Satan is my name!  
At night I'm dressed as lover  
I praise the morning star  
Good evening little lady  
Come join me in my car  
I am the one you'll come to  
A wolf is his best disguise  
Don't say they never told you  
The evil...evil never dies?  
Saturday Satan - See the devil is alive  
Saturday Satan - Diabolic dynamite  
Saturday Satan - See the evil in my eyes  
Saturday Satan - I'm the devil in disguise  
Satan! Satan! Satan! Satan!  
I am the son of darkness  
The pentagram's my sign  
Believe me little darling  
At midnight you'll be mine  
I'll eat your soul for breakfast  
Can't break my evil spell  
My purgatory's waiting  
Saturday Satan - See the devil is alive  
Saturday Satan - Diabolic dynamite  
Saturday Satan - See the evil in my eyes  
Saturday Satan - I'm the devil in disguise  
Satan! Satan! Satan! Satan!
