

# Prefab Sprout, Avenue Of Stars

Love is an Avenue of Stars, I know because I've seen the glow  
Lighting up faces, faces that have been  
Close enough to shine at what they have seen

Love is an Avenue of Stars, and if it is light years away  
One day I'll get there nursing tired feet  
Happy beyond words to be on that street

Each step is hard, each step is slow  
Each step unsure and yet I know

Love is an Avenue of Stars and though I'm tired and I'm lame  
My will is iron and one day I will race  
Down that silver highway, light on my face

Until then, until that day  
One single thought lights up the way

Love is an Avenue of Stars

Avenue of Stars, Avenue of Stars, Avenue of Stars
