

Prevent Falls, No More Brazil

i took her out in the cold.
to explain myself.
but seeking positive change.
was not something she could tell.
apologies she assaulted with her attacks.
she's so goddamned ignorant.
i hope she thought this was worth it.
i'm going to back down.
you just dug the hole.
you made a promise i wont forget.
i'm going to remove.
my whole life from you.
please don't support me.
i hate you.
and i've tried so many times.
to make a change.
she sobered me up.
with all the things she said.
but to think i would tolerate.
this is another bet.
to insult my friends.
and the relations of this band.
don't show your fucking face again.
or i will make this hell.
and you try to take my pride away.
