

# Primal Fear, Along Came The Devil

We're born to rock and raised on metal  
A generation made of steel  
We walk the streets with chains and leather

No matter what they say or do

There ain't nobody ever bringin' us down  
We will rock forever more

Along came the devil  
And he tried to break us  
Along came the devil  
We stood ground against his evil

In '98 we came together  
To rock relentless and for real

There ain't nobody ever bringin' us down  
We will rock forever more

Along came the devil  
And he tried to break us  
Along came the devil  
We stood ground against his evil

Along came the devil  
And he tried to break us  
Along came the devil  
We stood ground  
Along came the devil  
And he tried to break us  
Along came the devil  
We stood ground against his evil
