

# Primal Fear, Church Of Blood

Steel and fire  
Spreading the holy word  
Dirty liars  
The truth has never been heard  
Are you the one who think free  
Or do you share this mad insanity  
To use a religion - increasing the terror  
Is much more that just a human error

What are they fighting for  
They call it holy war  
So many innocent have died

There's no democracy in the church of blood  
There's no democracy  
Welcome to the church of blood

Pray salvation  
The promised paradise  
Violent nations  
Who kill and terrorize  
Sowing the seeds of discord  
Ready to kill in the name  
Of our lord  
Suicide victims setting their signs  
Burning the books and the tales

What are they fighting for  
They call it holy war  
So many innocent have died

No democracy in the church of blood  
There's no democracy  
Welcome to the church of blood

Oh lord, my god - consider all the words thy hands  
Have made  
Your son - you sent him to die,  
I scare can take it in  
That on the cross,  
My burden gladly bearing  
He bled and died to save me  
From my sin
