## Primal Fear, Crucify Me

Waiting for absolution Guiltless in custody

So mant years I've been Condemned for what I've done They have added many lies I was fighting to defend The ones I love Now they twist and strain The truth

Crucify me Crucify me Crucify me I don't care

Restless in a cage of madness Justice, my time will come

So far, no further
I am wasting too much time
My words are falling
On deaf ears
And now I'm ready
To release the beast in me
So come and catch me if you can

Crucify me Crucify me Crucify me I don't care

Crucify me
Waiting for absolution
Crucify me
Remains in custody
Crucify me
So many lies
Crucify me
Crucify me
Crucify me

So mant years I've been Condemned for what I've done They have added many lies And now I'm ready To release the beast in me So come and catch me if you can

Crucify me Crucify me Crucify me I don't care
