Prince, Empty Room

Empty room, empty room How am I gonna fill U? How am I gonna fill this empty room?

Love is strong, however long We should've been 4ever How am I ever gonna fill this empty room?

Found a strand of your hair By the bathroom window How am I ever gonna get U off my mind?

In my bed, in my head Every word U've spoken Now how am I gonna fill this empty room?

Lonely hearts, worlds apart Why should they be broken? When we could be somewhere makin' love

Love is strong, however long We should've been 4ever Baby, why did U leave me all alone? Why'd U do it?

Barren walls, tears fall What's the use in cryin'? I gotta find a way, find a way 2 fill this empty room
