I tried to warn you  
that its hard to be a star  
Especially when your driving other peoples car  
Would of gave you mine girl  
But you took it to far  
I Love you baby  
Just not like i love my guitar

(Coursus)

(Verse)

I know you love me  
And you want to be Friends  
And if you dont at least you need to pretend  
We'll still be together  
If we dont get that far  
I love you baby but not like i love this guitar

(Outro)

I love you baby and i wish you well  
I'll write a letter when i learn how to spell  
Until the day you can go to hell  
I love you baby you know the rest
